SUM, COUNT & AVERAGE Results

	A	B
1	SUM Questions	Result
2		
3	1. Calculate the total sales of female employees in the Dhaka region.	2,608,000
4	2. Calculate the total sales of active orders for the Laptop product.	2,700,000
5	3. Calculate the total sales of male employees in the Sales department whose sales amount is greater than 100,000.	1,568,000
6	4. Calculate the total sales for the Dhaka or Chattogram regions.	5,791,000
7	5. Calculate the total sales of orders with Active status and a quantity greater than 10.	4,983,000
8		
9		
10	COUNT Questions	Result
11		
12	6. How many times was the Laptop product sold in the Dhaka region?	12
13	7. Count the orders placed by female employees with Active status.	23
14	8. Count the number of orders with a sales amount between 50,000 and 200,000.	32
15	9. Count the orders for Mobile or Laptop products made by male employees.	16
16	10. Count the inactive orders in the Sales department.	6
17		
18		
19	AVERAGE Questions	Result
20		
21	11. Calculate the average sales amount in the Dhaka region.	194,905
22	12. Calculate the average sales of female employees.	179,862
23	13. Calculate the average sales of the Laptop product with Active status.	225,000
24	14. Calculate the average sales of male employees in the Sales department.	159,364
25	15. Calculate the average sales of orders with a quantity greater than 10.	190,875

MAX, MIN & Wildcard Pattern Matching

	A	B
28	MAX Questions	Result
29		
30	16. Find the highest sales amount in the Dhaka region.	280,000
31	17. Find the highest sales amount among female employees.	275,000
32	18. Find the highest sales amount for the Laptop product.	280,000
33	19. Find the highest sales amount among orders with Active status.	280,000
34	20. Find the highest sales amount in the Sales department.	280,000
35		
36		
37	MIN Questions	Result
38		
39	21. Find the lowest sales amount in the Dhaka region.	90,000
40	22. Find the lowest sales amount among female employees.	70,000
41	23. Find the lowest sales amount for the Laptop product.	90,000
42	24. Find the lowest sales amount among orders with Active status.	55,000
43	25. Find the lowest sales amount in the Sales department.	90,000
44		
45		
46	Wildcard & Pattern Matching Questions	Result
47		
48	26. Calculate the total sales of products whose names start with the letter "L".	5,541,000
49	27. Count the orders from regions whose names start with the letter "D".	21
50	28. Calculate the average sales of products whose names end with the letter "e".	145,444

Functions & Skills Practiced

SUM

SUMIF / SUMIFS

Single & multi-condition totals (AND/OR) across region, gender, department, product, status and quantity.

COUNT

COUNTIF / COUNTIFS

Counted orders using single, combined, range (“between”) and OR conditions.

AVERAGE

AVERAGEIF / AVERAGEIFS

Average sales for single and multi-criteria filters across fields.

MAX

MAXIFS

Highest sales amount for each single-condition filter (region, gender, product, status, dept).

MIN

MINIFS

Lowest sales amount for the same set of single-condition filters.

WILDCARD

SUMIF · COUNTIF · AVERAGEIF + “*”

Pattern matching - values starting or ending with a given letter.
